

# Agri commodities and tropical fruits Trading Company

# Our Story

Galaxy Commercial Ltd is a leading UK based **Cashew, Coconut, Mango, Tiger nut, Sesame Seed, Arabic gum** and **Tropical Fruit** Trading Company. The UK office is the Head-quarter of the Galaxy Group with subsidiary companies in **West Africa (Ivory Coast)** and **Singapore (South East Asia)**.

With its West Africa office, Galaxy Commercial has a close relationship with producers and growers of the list of commodities mentioned above. While it facilitates the sourcing of goods for export, the company can **give back to the local/rural communities in Africa** by **creating jobs** especially for women and **alleviate poverty** in the process.

# About Us

Galaxy Commercial is a multi-national group represented in three countries with each country representing a continent.

The headquarter ([Galaxy Commercial Ltd](#)) based in the United Kingdom (UK) represents EUROPE.

A subsidiary company called [Galaxy Commercial Impex Pte Ltd](#) deals with the Asian Market.

The company in Africa by the name of [Galaxy Commercial SARL](#) takes care of its sourcing operations in Africa in order to ensure quality and deliver competitive pricing for its buyers.

The Group is run by a board of directors with years of experience in the commodities traded by the company.

# Our Products

## Raw Cashew Nuts

We offer the best quality African raw cashew nuts at competitive prices maintaining quality parameters of international standards giving preference to client's requirements for reliability, honesty and integrity of supply.

One of our directors is the ambassador for the AEC-CI (the largest Cashew association of West Africa) with a production capacity of nearly 800 000 metric tons per annum

## Cashew Kernel

Galaxy Commercial work with a long list of cashew processors around the world for its sourcing of kernel for export. The following grades of cashew nut kernel are normally available for export. - Grades W320, W240, LWP, W450, Splits, SP, SWP, BB.

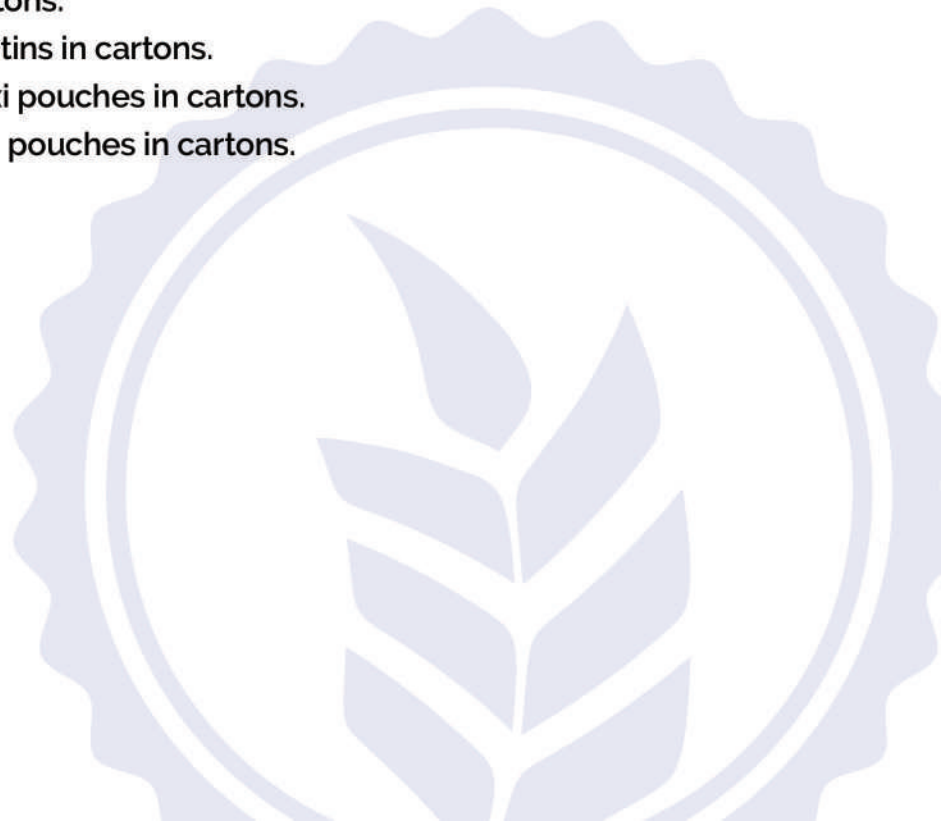

We can export small quantities of Cashew Nuts as a Trial Shipment to test the Quality of Cashew nut, starting with 1,000 kg by Air or by Courier Export or by Sea Freight for the importers/Buyers who are serious about placing a full Container Order afterwards.

## Packing:

Cashew Kernels in bulk are packed in four gallon tins with a net weight of 11.34 Kg. (25 lb.) in each tin. The filled tins are then vacuumised and filled with carbon-dioxide gas and sealed. Two such tins of the same grade are packed in a carton for export. The net weight of a carton is thus 22.68 Kg. (50lbs).

- 2 x10 kgs vaccumised tins in cartons.
- 2 x25 lbs (11.34 kgs) vaccumised tins in cartons.
- 1 x50 lbs (22.68 kgs) vacuum flexi pouches in cartons.
- 2 x25 lbs (11.34 kgs) vaccum flexi pouches in cartons.

## Coconut

Galaxy Commercial Ltd has many buyers of coconut in Europe with regular demand for quality coconut. We supply all the major buyers of coconut in the Netherlands throughout the year. Our Coconut are GlobalGap certified. We are working toward other certifications i.e. SMETA, BSCI, Fairtrade, ETI, RFA, SA8000, SIZA, Fair for Life

## Mango

We supply the best quality Mangoes from Africa. We have farms in Ivory Coast, Burkina Faso and Mali. The variety that we supply are as follows: Amélie, Kent. The quality of our mangos meets all international standard and are certified GlobalGap.

## Tiger Nut

Tiger nut is a crop of the sedge family widespread across much of the world. It is found in most of the Western Hemisphere, as well as Southern Europe, Africa, Madagascar, the Middle East, and the Indian subcontinent. Historically it has become naturalized in many other regions, including Ukraine, China, Hawaii, Indochina, New Guinea, Java, New South Wales, and various oceanic islands.

## Sesame Seed

Sesame is a flowering plant in the genus *Sesamum*, also called benne. Numerous wild relatives occur in Africa and a smaller number in India. It is widely naturalized in tropical regions around the world and is cultivated for its edible seeds, which grow in pods or "buns". The world harvested 4.2 million metric tonnes of sesame seeds in 2013, with India and China as the largest producers. Sesame seed is one of the oldest oilseed crops known, domesticated well over 3000 years ago. Sesame has many species, most being wild and native to sub-Saharan Africa.

We supply mostly from Africa according to the following specifications:

- Natural Cleaned Sesame Seeds
- Purity: 98% min, Admixture: 1% max, Color: White, Moisture Content: 5% max
- Oil Content: 51% min, FFA (Free Fatty Acid) Content: 1% max.

## Gum Arabic

Gum Arabic is a dried exudate (in this case, sap from a tree trunk) obtained primarily from Acacia Senegal (known as 'hashab' or 'kordofan').

Commonly, our European buyers also use the name 'Gum Arabic' for gum from any other Acacia species – sometimes referred to as 'Acacia Gum'. For example, many people also use the name 'Gum Arabic' for gum from Acacia Seyal. This gum, which is different from other species, also has the common name 'Gum Talha'.

Acacia Senegal and Acacia Seyal are the two most commercially important sources of gum arabic for Europe.

Feel free to contact us for your all your Gum Arabic requirements.

# International Conferences

Over the past few years, Galaxy Commercial Ltd is a regular invitee to International Cashew Conferences as Expert contributor. This has helped raise the company profile around the world. One of our directors is a regular speaker to the World Cashew Convention.
